

## Environmental Laboratory

Rogers & Callcott's Environmental Laboratory has built a reputation for data accuracy and quality services on which clients have relied since 1969. Our laboratory is routinely evaluated by state and national environmental accreditation programs through on-site audits and EPA mandated laboratory performance audits. We hold National Environmental Laboratory Accreditation Program (NELAP) certification allowing us to serve national clients under very strict standards. Our 14,000 sq. ft. laboratory facility is designed for trace and ultra-trace environmental testing for a multitude of programs.

*We are certified by SC DHEC and NCDEQ in Clean Water Act, Safe Drinking Water Act, and Solid and Hazardous Waste testing. We are also certified for drinking water analysis by Georgia DNR. Our NELAP certification allows us to serve clients nationwide.*

### Our laboratory services include:

- Routine Compliance Monitoring
- RCRA Facility Investigation Testing
- Safe Drinking Water Act Analysis
- Trihalomethanes/Haloacetic Acids
- Groundwater Monitoring
- Solid and Hazardous Waste Analysis
- Clean Water Act Analysis
- Treatability Studies

### Our substantial investment in equipment includes:

- 6 Gas Chromatograph Mass Spectrometers (GC/MS)
- 4 Gas Chromatographs (GC)
- Inductively Coupled Plasma Mass Spectrometer (ICP/MS)
- Inductively Coupled Plasma (ICP)
- Ion Chromatography (IC)
- Total Carbon Analyzer
- Konelab Discrete Analyzer
- 2 Flow Analyzers

### Our Clients include:

- Industries
- Water Systems
- Environmental Consultants
- General Public
- Municipalities
- Contractors
- Other Commercial Laboratories
- Regulatory Agencies

### Field Sampling:

- 24 hour Composite Sampling
- Groundwater Sampling
- Solid and Hazardous Waste Sampling
- Field Parameter Analysis
- Sample Pick-Up
